

FORMULA

BLHeli_32

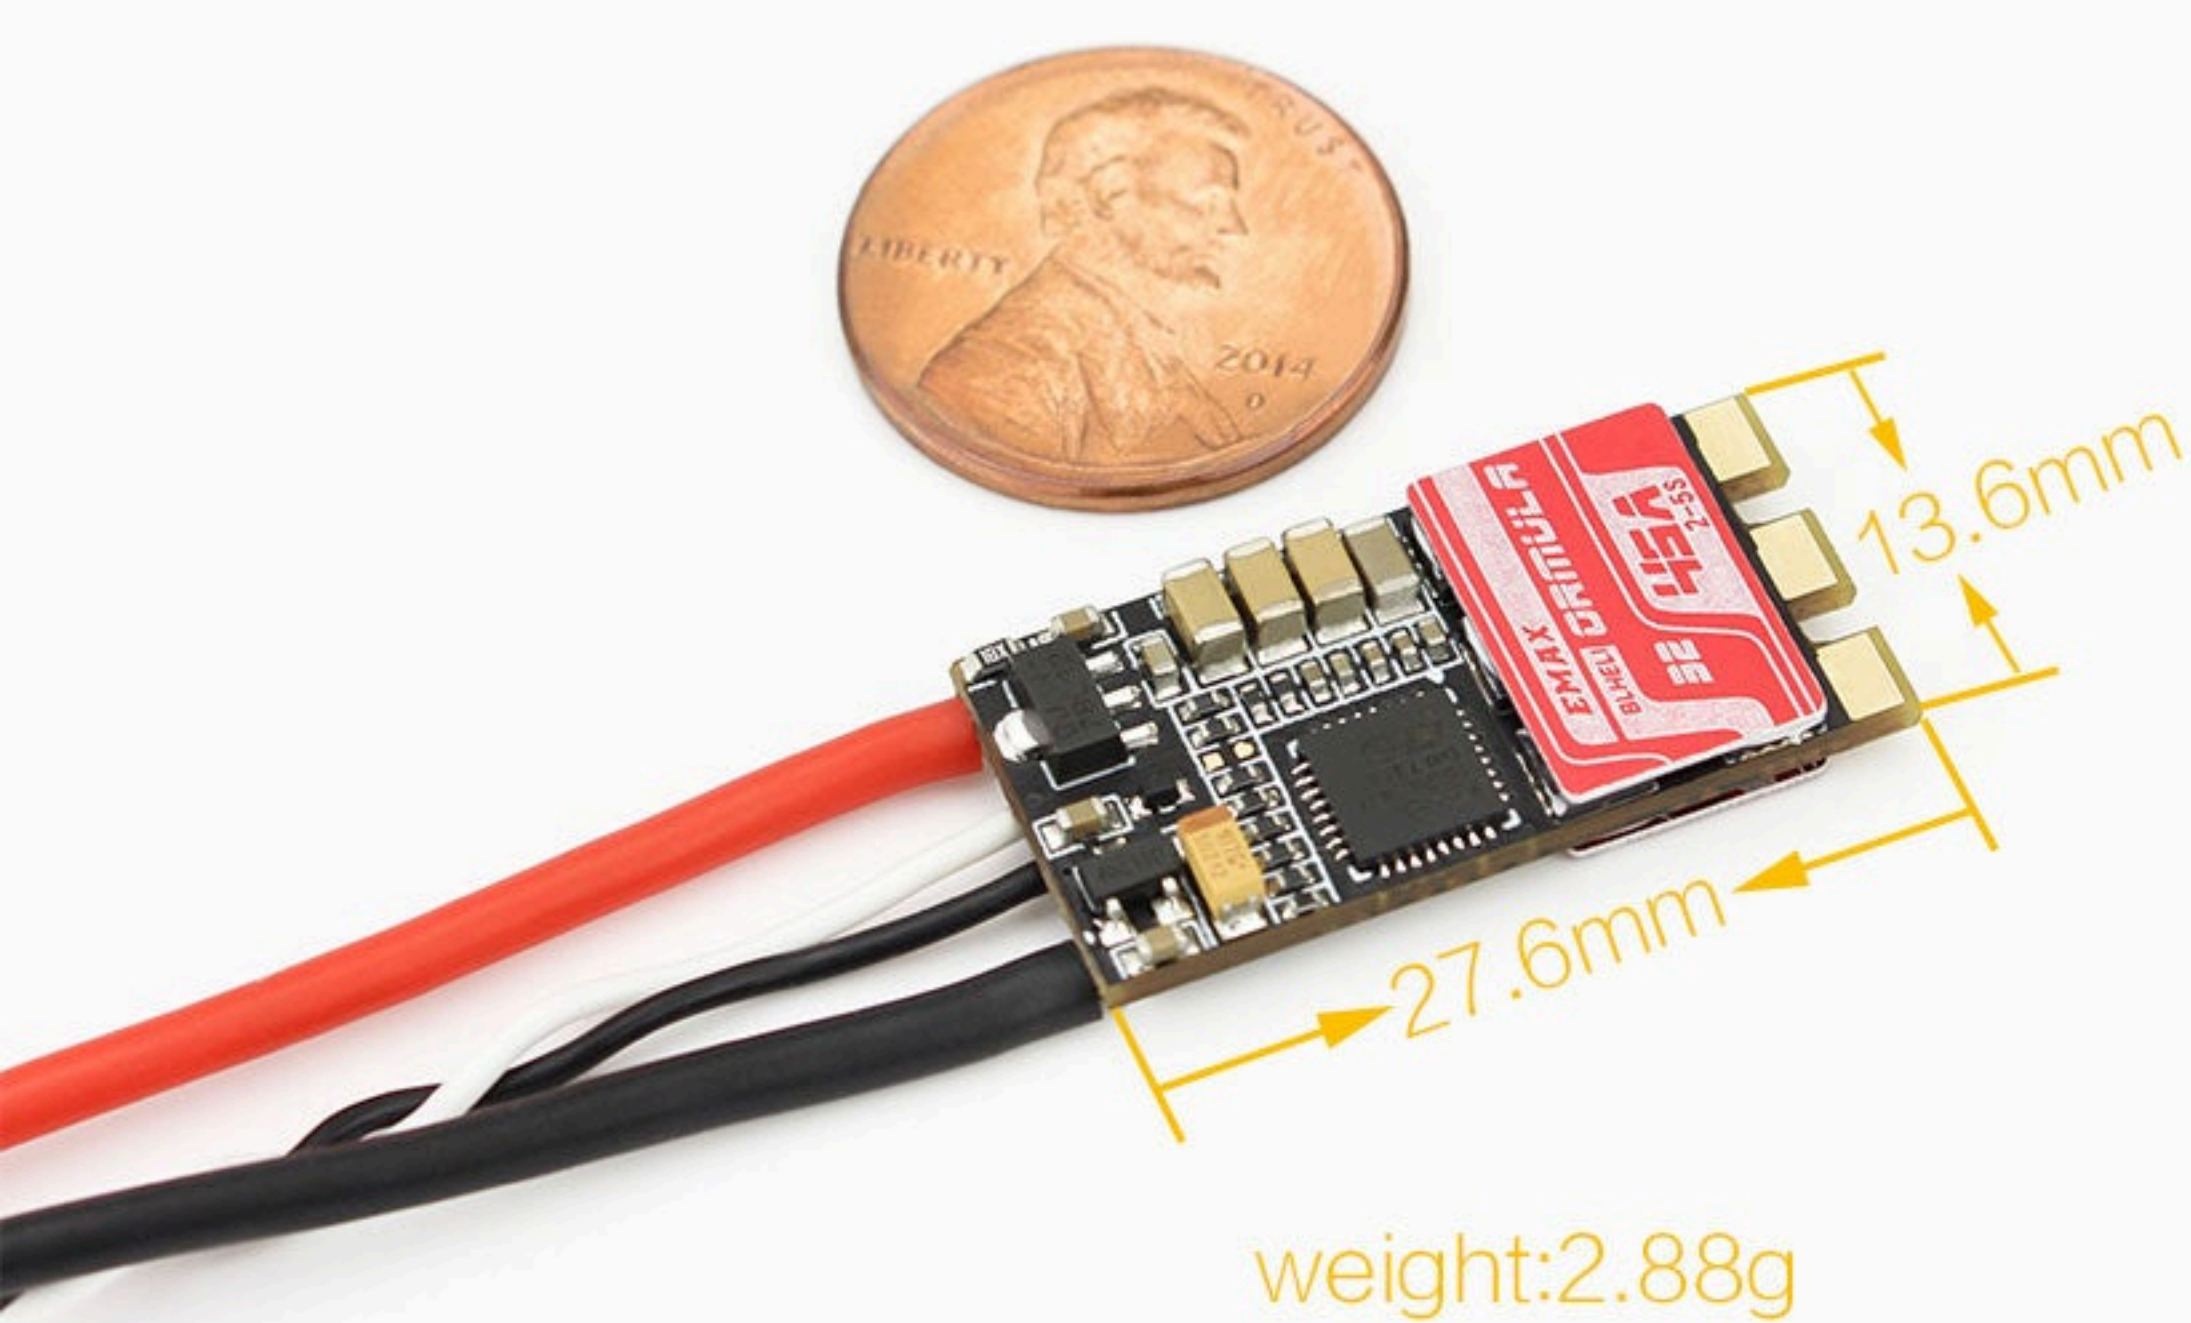

2-5S

Combined with F3-F7 Flight Controllers capable of 32K looping will bring the most efficient and controlled power

Providing 45 amps of power and at the same time giving super smooth flight with the use of DSHOT1200

Light weight and small in width

Item	Continuous Current	Burst Current	Li-xx Battery(cell)	Dimension L×W (mm)	Weight (g) W/O wires	MCU
Formula 32 bit 45A ESC	45A	55A	2S-5S	27.6×13.6	2.88	STM32F051
